

Incremental composite soil samples: Soil taken from 30 locations in each decision unit (DU) were mixed together to make a single sample

(b) (6)

(b) (6)

DU-155-O2

14.6 ppm of Arsenic

322 ppm of Lead

Recommend Following Soil Safety Guidelines

(b) (6)

(b) (6)

DU-155-G1

15.1 ppm of Arsenic

166 ppm of Lead

No action required

(b) (6)

(b) (6)

DU-155-H2

11.1 ppm of Arsenic

200 ppm of Lead

No action required

(b) (6)

DU-155-H1

6.21 ppm of Arsenic

62.3 ppm of Lead

No action required

(b) (6)

(b) (6)

DU-155-G2

8.52 ppm of Arsenic

109 ppm of Lead

No action required

LEGEND

Residence Boundary

Incremental Composite Sample Concentrations

Less than 250 ppm of lead and less than 20 ppm of arsenic. No action required.

Greater than 250 ppm of lead and/or greater than 20 ppm of arsenic. Recommend using the Soil Safety Guidelines described in the brochure included with this map.

Discrete Soil Sample Locations
